Axovia 170S^{NS}

Motorisation for rigid metal gates.

The Axovia 170S^{NS} jack motorisation is particularly suitable for rigid metal gates.

It can be used to motorise new or existing gates.

Manual unlocking system to operate the gate in the event of an electrical power cut.

Ease of use

- 3 operating modes:
 - **Semi-automatic:** opening and closing using a remote control.
 - **Automatic:** opening using a remote control and automatic closing once a car has passed through.
 - **Pedestrians:** a single gate opens to allow pedestrians or cyclists to pass through.
- The gate opens to 90° in 12 to 16 seconds.
- Soft start / soft finish operation in order to protect the gate structure
- Manual unlocking system and backup battery (optional) to operate the gate in the event of an electrical power cut.
- Silent operation thanks to the Silent block system.

Instantaneous motor shut-off in the event of obstruction.

Optimum security

- Motor shut-off in the event of obstruction.
- Anti break-in device which provides a counter-force if forced entry is attempted.
- Secure remote control (exclusive Somfy RTS system).
- Complies with standard EN 60 335-2-103.

Tried and tested quality

- 5-year warranty*.
- * Somfy manufactured component warranty granted to installation customers who have their own sales and warranty conditions.

Accessory upgrade

Maximise your comfort, safety & convenience by including the Somfy accessories to your gate opener.

APPLICATIONS

Axovia 170S^{NS} can be fitted to any metal swinging gates, new or existing.

ACCESSORIES FOR EASE OF USE AND SECURITY

A SOMFY REMOTE CONTROL FOR YOUR GATE AND ALL YOUR HOME MOTION NEEDS

Compatible with all RTS Somfy motors and automatic control systems.

- **RELIABILITY:** Specific radio frequency 433.42 MHz shielded from interference.
- **POWER:** Multi-directional range of up to 200 metres.
- **SECURITY:** The radio signal is coded and this code is changed with every transmission to one of 16 million possible combinations to prevent any risk of hacking.
The new code button locks the keys on the remote to avoid any unwanted operation.
- **UPGRADEABILITY:** Option to replace or add new accessories over time to improve ease of use and security.
