Axovia 220A^{NS}

Motorisation for all types of swinging gates.

The Axovia 220A^{NS} is a quick and silent system.

The Axovia 220A^{NS} arm motorisation is very adaptable, to meet the demands of various installation needs, ensuring the gate structure is protected.

The built-in electronic control box makes the installation more attractive by doing away with unsightly control boxes on pillars.

This drive unit is designed for traditional gate opening, irrespective of the materials used, and can be used to motorise new or existing gates.

Ease of use

- 3 operating modes:
 - **Semi-automatic:** opening and closing using a remote control.
 - **Automatic:** opening using a remote control and automatic closing once a car has passed through.
 - **Pedestrians:** a single gate opens to allow pedestrians or cyclists to pass through.
- The gate opens to 90° in 10 seconds.
- Soft start / soft stop operation in order to protect the gate structure.
- Easy manual unlocking system and back up battery (optional) for operating the gate in the event of an electrical power cut.

Manual unlocking using a rotary switch to operate the gate in the event of an electrical power cut.

Optimum security

- Motor shut-off in the event of obstruction.
- Arm ergonomics designed to prevent any possibility of trapping or shearing.
- Anti break-in device which provides a counter-force if forced entry is attempted.
- Secure Remote control (exclusive RTS Somfy system).
- Complies with standard EN 60 335-2-103.

Instantaneous motor shut-off in the event of obstruction.

Tried and tested quality

- 5-year warranty*.
- Robust materials for long-term reliability (Aluminium arm, reinforced clamp, and dirt-resistant matt finish).

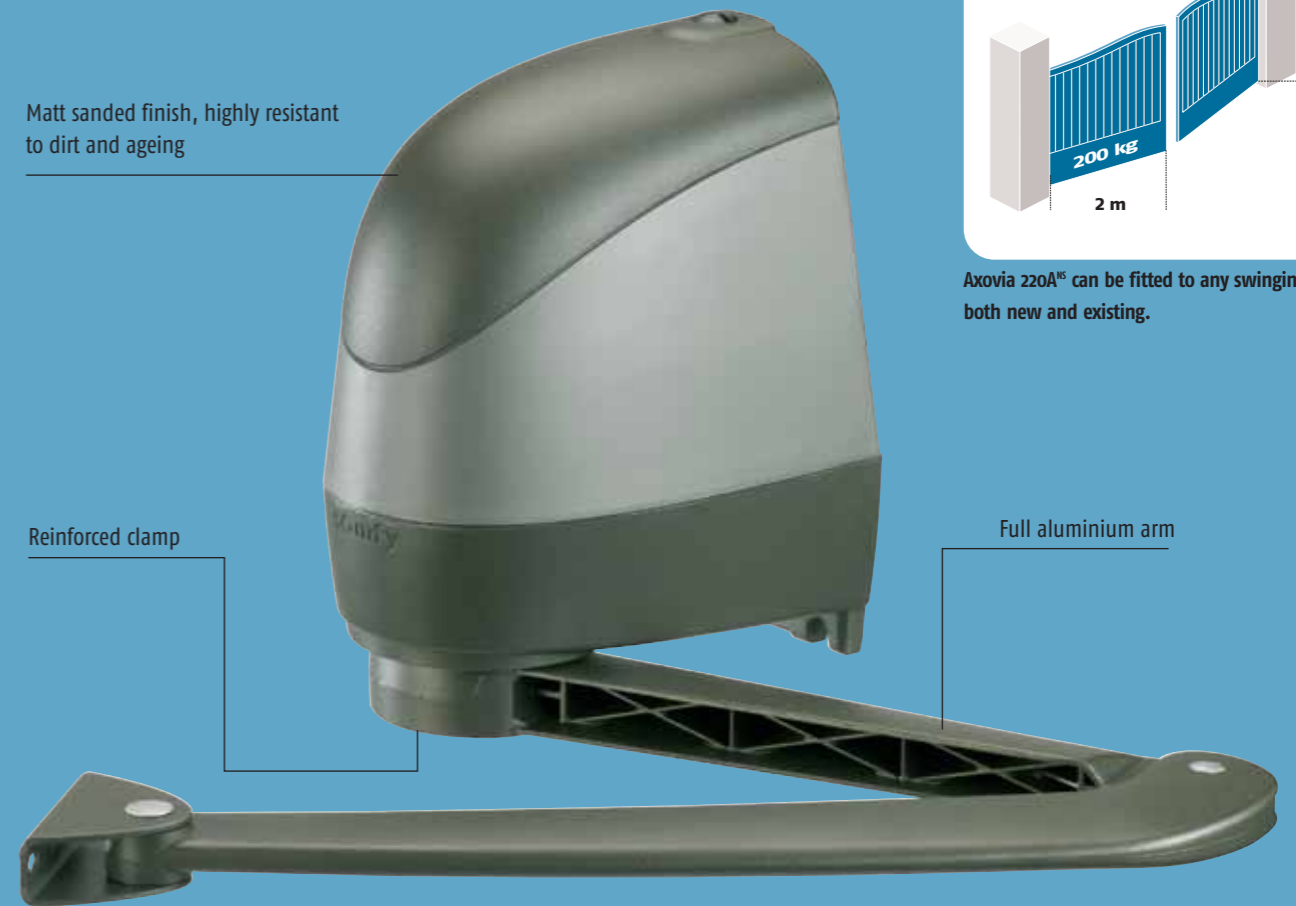

*Somfy manufactured component warranty granted to installation customers who have their own sales and warranty conditions.

Accessory upgrade

Maximise your comfort, safety & convenience by including the Somfy accessories to your gate opener.

The choice for quality

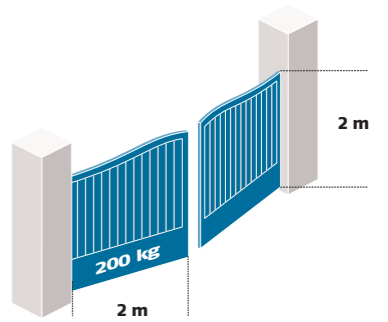

Matt sanded finish, highly resistant to dirt and ageing

Reinforced clamp

Full aluminium arm

APPLICATIONS

Axovia 220A^{NS} can be fitted to any swinging gates, both new and existing.

INTERCOM

A SOMFY REMOTE CONTROL FOR YOUR GATE AND ALL YOUR HOME MOTION NEEDS

Compatible with all RTS Somfy motors and automatic control systems.

Radio Technology Somfy

• **RELIABILITY:** Specific radio frequency 433.42 MHz shielded from interference.

• **POWER:** Multi-directional range of up to 200 metres.

• **SECURITY:** The radio signal is coded and this code is changed with every transmission to one of 16 million possible combinations to prevent any risk of hacking.

The new code button locks the keys on the remote to avoid any unwanted operation.

• **UPGRADEABILITY:** Option to replace or add new accessories over time to improve ease of use and security.
