Axovia Multi Pro^{NS}

Motorisation for all makes and models of swinging gates.

The Axovia Multi Pro^{NS} is a rapid and silent system and the drive unit is designed to meet all gate opening requirements, irrespective of the materials used.

The Axovia Multi Pro^{NS} arm motorisation is very adaptable to meet the demands of your installation, ensuring the gate structure is always well protected.

Additionally, it can be used to motorise new or existing gates.

Manual unlocking using a rotary switch to operate the gate in the event of an electrical power cut.

Ease of use

- Adaptable to all installations, even the most difficult: traditional interior opening, exterior opening, opening on slopes, wide-angle opening or in reduced spaces.
- 3 operating modes:
 - **Semi-automatic:** opening and closing using a remote control.
 - **Automatic:** opening using a remote control and automatic closing once a car has passed through.
 - **Pedestrians:** a single gate opens to allow pedestrians or cyclists to pass through.
- The gate opens to 90° in 15 seconds.
- Soft start / soft finish operation in order to protect the gate structure.
- Easy manual unlocking system and backup battery (optional) to operate the gate in the event of an electrical power cut.

Optimum security

- Motorshut-off in the event of obstruction.
- End-stops built into the motor which removes the need for unattractive and inconvenient ground stops.
- Arm ergonomics designed to prevent any possibility of trapping or shearing.
- Anti break-in device which provides a counter-force if forced entry is attempted.
- Secure remote control (exclusive RTS Somfy system).
- Complies with standard EN 60 335-2-103.

Instantaneous motor shut-off in the event of obstruction.

Tried and tested quality

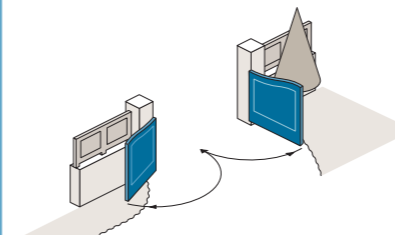

- 5-year warranty*.
- Plate for fixing to any support to ensure the best possible installation of the motor.
- Robust materials for long-term reliability (stainless steel fastenings, aluminium arm, reinforced clamp, and dirt-resistant matt finish).

* Somfy manufactured component warranty granted to installation customers who have their own sales and warranty conditions.

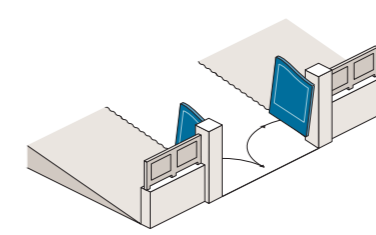

Accessory upgrade

Maximise your comfort, safety & convenience by including the Somfy accessories to your gate opener.

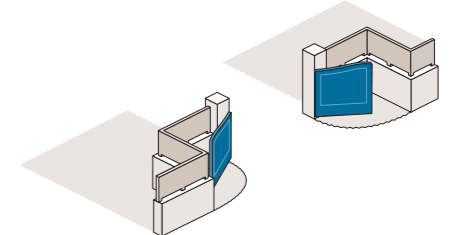

APPLICATIONS

Interior opening up to 150°

Opening on slopes (slope up to 20°)

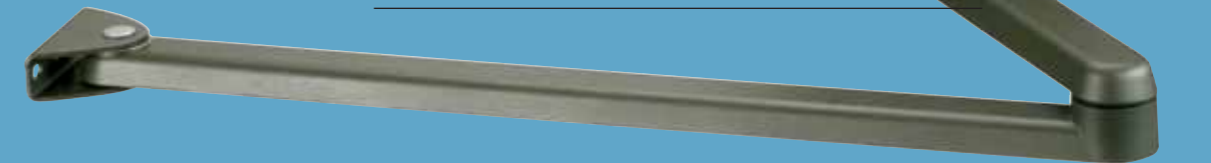

Exterior opening

The choice for quality

AX24 Control box

Matt sanded finish, highly resistant to dirt and ageing

INTERCOM

A SOMFY REMOTE CONTROL FOR YOUR GATE AND ALL YOUR HOME MOTION NEEDS

Compatible with all RTS Somfy motors and automatic control systems.

• **RELIABILITY:** Specific radio frequency 433.42 MHz shielded from interference.

• **POWER:** Multi-directional range of up to 200 metres.

• **SECURITY:** The radio signal is coded and this code is changed with every transmission to one of 16 million possible combinations to prevent any risk of hacking.

The new code button locks the keys on the remote to avoid any unwanted operation.

• **UPGRADEABILITY:** Option to replace or add new accessories over time to improve ease of use and security.
